CURRICULUM VITAE

CAREER OBJECTIVE

Enthusiastic, dedicated, and detail-oriented Full-Stack Web Developer with practical expertise in building high-performance modern web platforms using React, Next.js, Node.js, Express, and MongoDB. Passionate about transforming UI/UX wireframes into responsive, clean code and constructing secure backend API endpoints. Seeking to leverage strong frontend skills, software engineering fundamentals, and continuous learning capability to deliver value in a progressive development team.

KEY PROJECTS & WEB EXPERTISE

1. Full-Stack E-Commerce & Web Application Platform

Tech Stack: TypeScript, Next.js 14, React, Tailwind CSS, Node.js, MongoDB

- Architected a type-safe web application using TypeScript and Next.js App Router for high reliability and optimal page performance.
- Implemented robust user authentication, session state management, and role-based route access controls using Better Auth.
- Engineered scalable database schemas in MongoDB Atlas with structured Mongoose models and secure backend REST APIs.

2. Responsive Administrative Dashboard & UI System

Tech Stack: TypeScript, React.js, Tailwind CSS, DaisyUI, HeroUI

- Developed modular, strongly-typed React components for complex data management dashboards and real-time client interaction.
- Ensured full cross-browser compatibility, fast page renders, and fluid mobile responsiveness across various device viewports.
- Integrated external REST endpoints using asynchronous JavaScript/TypeScript (Fetch API / Axios) for live data updates.

3. Web Development Workflow & Code Quality Assurance

Tools: Git, GitHub, Vercel CI/CD, Postman

- Maintained structured Git version control workflows with multi-branch management and continuous deployment via Vercel.
- Conducted rigorous RESTful API testing in Postman to ensure seamless client-server communication and edge-case handling.
